Today's Agenda

-
- CISA V1: ED 25-03
 - FedRAMP Cyber Security Service (FRCS)
 - Consolidated Rules Updates
 - RFC Updates
 - Questions

CISA V1: ED 25-03

- CISA released V1: Emergency Directive 25-03 on April 23
 - Updated instructions and requirements for ASA and FTD components
 - Required CISA Reporting on May 1st
 - FedRAMP released subsequent instructions on 23 April
 - Release coordinated with CISA and Agency Liaisons
 - FedRAMP reported on behalf of FedRAMP Certified services on 29 April
 - FSI Response rate acknowledgement and action
 - 91% response rate for all service providers
 - 100% response rate for 20x
 - Shout out to 3PAO/Consultants who worked across CSPs
-

Consolidated Rules 2026 (CR26)

Consolidated Rules create a predictable baseline for FedRAMP rules.

- Incremental public release started 4 May (<https://fedramp.gov/preview/2026>)
 - Rules driven vs Narrative driven requirements
 - Each rule is
 - Applicable to either Rev 5 or 20X
 - Applicable to either FedRAMP, Agencies, Assessors, and Providers
 - Applicable to either Class A, B, C, or D Certifications/Validations
 - Provided in [machine](#) and [human readable](#) format
 - Templates will move to an agnostic machine readable format
 - BIRs will transition to control standards vs separate things
 - Marketplace is being updated to reflect these changes
 - Transparency and iteration are key
-

NTC-00XX: Initial Outcomes from RFC-0026 through RFC-0030

- Pending updates and release
- Outcomes from RFCs 0026-0030 will be combined into a single notice
- Global Changes:
 - Introduces the term “Legacy Rev 5 Processes”
 - BIRs will transition to the standard for CR26. “Opt-In” for BIRs moves to “Transition to” in all CR26 documentation and will eventually phase out
 - Controls will start to transition to remove legacy reqs
- RFC-0026: Clarifying CA-7 Continuous Monitoring Expectations
 - Raw scans only need to be supplied when contractually required by agency
 - Corrective Action Framework remains

NTC-00XX: Initial Outcomes from RFC-0026 through RFC-0030

- RFC-0027: Security Controls Update for AC, AT, AU, CA, and CM
 - CA-5: We will better delineate between legacy POA&M requirements and newer requirements (previous BIR)
 - SCG will remain a requirement for CM-6a only
- RFC-0028: Security Controls Update for CP, IA, IR, MA, and MP
 - Required transition to MAS will alleviate issues with ABD

NTC-00XX: Initial Outcomes from RFC-0026 through RFC-0030

- RFC-0029: Security Controls Update for PE, PL, PM, PS, and PT
 - FedRAMP will provide more clarity on expectations around Continuous Vetting
 - FedRAMP will provide more clarity on what is considered “external personnel security.”
 - FedRAMP will NOT impose nationality requirements but will ensure CSP explicitly include any (or lack of) in control descriptions.
- RFC-0030: Security Controls Update for RA, SA, SC, SI, and SR
 - FedRAMP will require sampling methodologies be published alongside sample based monitoring.
 - FedRAMP will also expand FSI control to include responding to CISA BOD/EDs on behalf of FedRAMP CSPs.

Active Betas (get in early before they are mandatory)

- Authorization Data Sharing
 - a. <https://www.fedramp.gov/docs/rev5/balance/authorization-data-sharing/>
 - Vulnerability Detection and Response (VDR)
 - a. <https://www.fedramp.gov/docs/rev5/balance/vulnerability-detection-and-response/>
 - Collaborative Continuous Monitoring (CCM)
 - a. <https://www.fedramp.gov/docs/rev5/balance/collaborative-continuous-monitoring/>
 - Interested CSP should fill out the required form located within the link above
 - a. Participation requirements are identified within the form
 - For Agency Liaisons, participants in BIRs are listed in the FedRAMP Agency Liaison folder on Connect.
