

Rev5 Community Update

April 1st, 2026
fedramp.gov/rev5

Today's Agenda

-
- Significant Change Notifications
 - Consolidated Ruleset
 - FedRAMP Cyber Security Service (FRCS)
 - RFC Outcomes
 - Open RFCs
 - Questions

[REC ●]

The **Significant Change Notification** Process is a
fully approved Balance Improvement Release.

Begin adopting this now in advance of mandatory
transition in 2027.

Follow the SCN Rules at
<https://fedramp.gov/docs/rev5>

Consolidated Rules 2026 (CR26)

Consolidated Rules create a predictable baseline for FedRAMP rules. They will be updated yearly but each set of rules will be valid for at least two years with only minor changes during that period.

- Consolidated Rules for 2026 are expected by the end of June 2026 and will be valid through December 2028
 - Implementation starts immediately with enforcement beginning in January 2027
 - All of the RFCs and BIRs over the last few months are phased into this consolidated guidance
-

Public Notices and RFC Outcomes

RFC Outcomes are now posted as public notices:

<https://www.fedramp.gov/notices/>

Site also contains an RSS feed.

NTC-0004: Initial Outcome from RFC-0020 FedRAMP Authorization Designations

- FedRAMP Authorization will be renamed **FedRAMP Certification**
- FedRAMP will no longer use FIPS 199 Security Categorizations for certifications to avoid confusion
 - RFC-0020 initially outlined a transition to numbered levels
 - Based on feedback, we will transition to lettered classes to avoid confusion

FR AUTH LABELS

	From	To
Noun	FedRAMP authorization	FedRAMP Certification
Adjective	FedRAMP authorized	FedRAMP Certified

CERTIFICATION **TYPES**

Types

FedRAMP **20x** for cloud-native services

FedRAMP **Rev5** for other services

CERTIFICATION **PATHS**

M-24-15 Names	CR26 Path Names
Agency Authorization	Agency Certification
Program Authorization	Program Certification

CERTIFICATION **CLASSES**

Classes	What FR used to call it
Class A	Pilot, Ready
Class B	Li-SaaS, Low
Class C	Moderate
Class D	High

CERTIFICATION **PROFILES**

Combination of a Type, Path, and Class.

Types	Paths	Classes
20x	Agency	[NOT AVAILABLE]
20x	Program	A, B, C
Rev5	Agency	B, C, D
Rev5	Program	A, B, C [LIMITED]

NTC-0008: Initial Outcome from RFC-0023 Rev5 Program Certifications

- **Retires FedRAMP Ready on July 28, 2026**
- Ready will be replaced with Class A (Pilot) Rev5, specifics pending
- Introduces **extremely limited** option for Rev5 Program Certification
- DOES NOT implement Trusted Assessor role as identified in RFC

NTC-0005: Initial Outcome from RFC-0021

Expanding the FedRAMP Marketplace

- Deletes pricing information requirements from RFC
- Deletes mandatory assessor attestation requirements
- Limits CSPs from dual pathing Rev5 and 20x simultaneously for Program Certification

NTC-0009: Initial Outcome from RFC-0024 Rev5 Machine-Readable Packages

It's a lot. If you are a Rev5 provider, you need to go read it yourself.

- All current Rev5 Balance Improvement Releases mandatory in 2027.
- Rev5 Class D (High) services will transition to comprehensive machine-readable packages by November, 2027.
- Other Rev5 services will have partial requirements and transition to semi-structured text.
- Full details to be provided in CR26.

Rev5 Active RFCs

- RFC-0025 Retrospective on the Public Comment Process
 - RFC about the RFC Process
- RFC-0026 Clarifying CA-7 Continuous Monitoring Expectations for Rev5 Providers
 - Clarifying expectations and responsibilities for CSPs and Agencies in the post-JAB world
- RFC-0027-0030 FedRAMP Rev5 Security Controls Baseline Update
 - Each RFC covers 5 control families
 - Updates based on either BIRs/Rev5 updates as well as updates based on Rev 5 review issues
 - NOTE: Updates to controls based on NIST updates will not be part of the public RFC process at FedRAMP. Please follow the NIST Public comment process

Active Betas

- Authorization Data Sharing
 - Open Beta Start: February 2, 2026
 - <https://www.fedramp.gov/docs/rev5/balance/authorization-data-sharing/>
 - Vulnerability Detection and Response (VDR)
 - Open Beta Start: February 2, 2026
 - <https://www.fedramp.gov/docs/rev5/balance/vulnerability-detection-and-response/>
 - Collaborative Continuous Monitoring (CCM)
 - Open Beta Start: February 2, 2026
 - <https://www.fedramp.gov/docs/rev5/balance/collaborative-continuous-monitoring/>
 - Interested CSP should fill out the required form located within the link above
 - Participation requirements are identified within the form
